

POTTERY BARN

Sophie wall hook

Note: For safe mounting, it is essential to use the proper hardware for your wall type. Contact your local hardware store for assistance, if necessary. For safety and ease of mounting, installation is recommended using two people.

Tools needed:

Level, tape measure, stud finder, Phillips screwdriver, pencil

Parts Included:

4 metal screws

4 small anchors (for dry wall only)

Mounting Instructions:

1. Hold wall hook at desired location. With a pencil, mark on the wall for screw hole location. Remove from wall. These marks will be used to determine the location of your mounting hardware.
2. Use a carpenter's level or measure up from the floor at each mark to ensure the rack will be level.

Dry Wall Mounting:

1. Use a Phillips screwdriver to insert the wall anchors. Do not "push" or drive the anchors into the wall, they are designed to bore into the wall like a drill bit. Slowly turn the anchors clockwise while applying pressure until the flange just touches the wall.
2. Attach wall hook by inserting screws into previously installed dry wall anchors. Tighten screws with a Phillips screwdriver.

Stud Mounting:

1. Attach wall hook by inserting screws directly into the wall (do not use anchors). Tighten screws with a Phillips screwdriver.

Care Instructions:

Wipe with a soft, dry cloth. To protect the finish, do not use household cleaners or abrasives.

thank you for your purchase
