Hotel Nickel Etagere Tipping Restraint Assembly Instructions

Hardware included:

- (2) Plastic brackets 46 x 20.5 x 9mm (a)
- (4) Wood screws 7mm dia. x 1-1/2" (b)
- (2) Nylon straps 252mm(L) (c)

Young children may be injured by tipping furniture and the use of a tipping restraint is highly recommended.

When properly installed, this restraint may provide protection against the unexpected tipping of furniture. We recommend mounting this restraint to a wall stud.

WARNING: This product is only a deterrent. It is not a substitute for proper adult supervision.

Installation Instruction:

1. Determine the final position of the etagere and locate a wall stud behind the piece. Position the plastic bracket (a) on the stud. Mark and drill pilot hole into the center of the stud with a drill bit. Attach the plastic bracket to the stud with the wood screws (b) provided.
2. Move the furniture into its final position.
3. Thread the nylon strap (c) through the brackets and the top back poles of the etagere as shown. Tighten up strap until snug. Do not over tighten.
4. Repeat steps 1-3 with the other side.
5. Check to make sure that the brackets are firmly installed and the straps are secure.
